To Whom it May Concern:

EHM Senior Solutions recently partnered with Maun-Lemke for two consecutive engagements focused on Revenue Enhancement (Occupancy and Skilled Medicare/Managed Care). The first engagement encompassed our full continuum and the second engagement focused on skilled nursing. We had a great experience that pushed the teams to think differently and to question the status quo.

Both Clint Maun and Cheryl Boldt were simultaneously high-level mentors yet down to earth communicators. Our team worked hard, learned a lot, and experienced a level of team accountability that they had not previously. We set some weekly stretch goals and we learned how to reach them.

As the leader of the team, I was impressed with the growth amongst team members during the two-phase engagement. Maun-Lemke has given us tools that we can self-sustain moving forward and we are grateful for the experience.

Respectfully,

Thom Hosinski
President & CEO
EHM Senior Solutions
