Dear Cheryl Boldt:

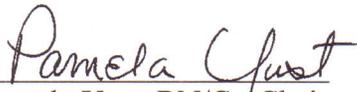

We would like to take this opportunity to thank you for your presentation at our Expert Nurse Legacy Conference held on March 29, 2007.

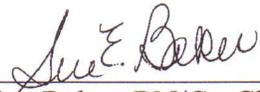

As you can see from the evaluations the response was overwhelmingly positive. We know that "Nursing Legacy" is a broad and not well-researched topic, and you covered a great deal of content in a short time.

If there would ever be a need for reference, we would be happy to help.

Sincerely,

The Metro Nursing Professional Development Council

Any further comments or suggestions regarding this or future continuing education offerings?

SUMMARY

The overwhelming majority of the nurses attending the conference enjoyed it and felt that their expectations were met. Some nurses did comment that the speaker didn't achieve the goal of showing how to pass on your legacy, but they still enjoyed the conference.

The slide show was a little hard to read and moved too quickly, some adjustments have been made to fix the problems.

A few people thought that the time allotted for registration was too long. That time was also meant for visiting the vendors. Next time we could put the timeline on the registration materials.

There were also some suggestions to offer a healthier menu, especially when the vendors were all about our own health. That will be taken into consideration for next year.
