Ms. Kathleen Cain
Maun-Lemke Speaking and Consulting
8031 West Center Road
Suite 222
Omaha, NE 68124

Dear Kathy:

It is with great pleasure to be able offer a strong recommendation for anyone interested in using Maun-Lemke, specifically for the purposes of addressing increasing Medicare admissions for their facility.

As you may know, we had contracted to have Clint do some motivational presentations for our staff and became aware of other services that your consulting firm had to offer. As a result, we contracted for six months to be able to add additional Medicare census for our organization. The Maun-Lemke approach allowed our organization to use a team based approach in addressing a multitude of issues, concerns, and opportunities and we were able to do that successfully with this approach.

We are very proud of many of the things our organization has been able to accomplish in its thirty-one year history and using Maun-Lemke has been one of the most rewarding for me personally.

Thank you very much for your service. Again, I strongly recommend any organization to consider using your services.

Very truly yours,

Terrence Gorman
Administrator
