Dear Donna:

Thank you very much for your outstanding presentations at MHCA's 2007 Midyear Convention. The attendees told us over and over what an excellent speaker you are. Your sessions definitely added to the quality of our convention.

I have enclosed a summary of the evaluations from each of your sessions. You certainly motivated those who heard you speak. I note that one of your "students" reconsidered turning in her two week notice after listening to you. Others thanked you for the boost and for being so positive. I thank you, also.

It was a pleasure to work with you. I hope to have the opportunity to do so again. Suzi and I agree "you are a very nice person!"

Sincerely,

Rose M. Hughes
